

# The Evening Prophet- Economy

The Minister of Magic saved these words. Which were very important for the economy. We all know that this is sad like nothing but we must take these moments to change the economy for the best for the Magical Community. Only one thing is at a point of the best: DAX is on a point which are so good how nothing these sad action near s can be happy to have them.

The economy is now at a point of darkness. The Ministers thought that they can change something but the real world is not a dream. We can't risky it to have another dive and we can't do something like that again" saved Professor Albus Percival Wulfric Brian Dumbledore. This "dive" is only a low point for a few days. In 6 days the Economy will be on a the highest point ever. The goblins in Gringotts saved: "We saw the dive of the economy with own eyes and it was not nice too see something like that. Our collaborator banks all around the world laughed about us." Another Goblin saved: "You will get the fair

**"I saw the dive of the Economy"** fair punishment. We were so near before the dead." The Ministry of Magic saved a packet of 1 Billion Galleons for this moment. The Magical Community will get about 1000 Galleons per family. Of course poor families will get more as rich families. A family which has got 1 Galleon gets 2000 Galleons and the Malfoy-Family will get only 10 Galleons. The differences are very big. When you want to know about this check up our book about it. You can buy the book for 7 Knuts in Flourish and Blotts. We are glad to say that this is a horror for every people in the magical world. Mr. Xenophilius Lovegood saved: I can not send my daughter any more to Hogw

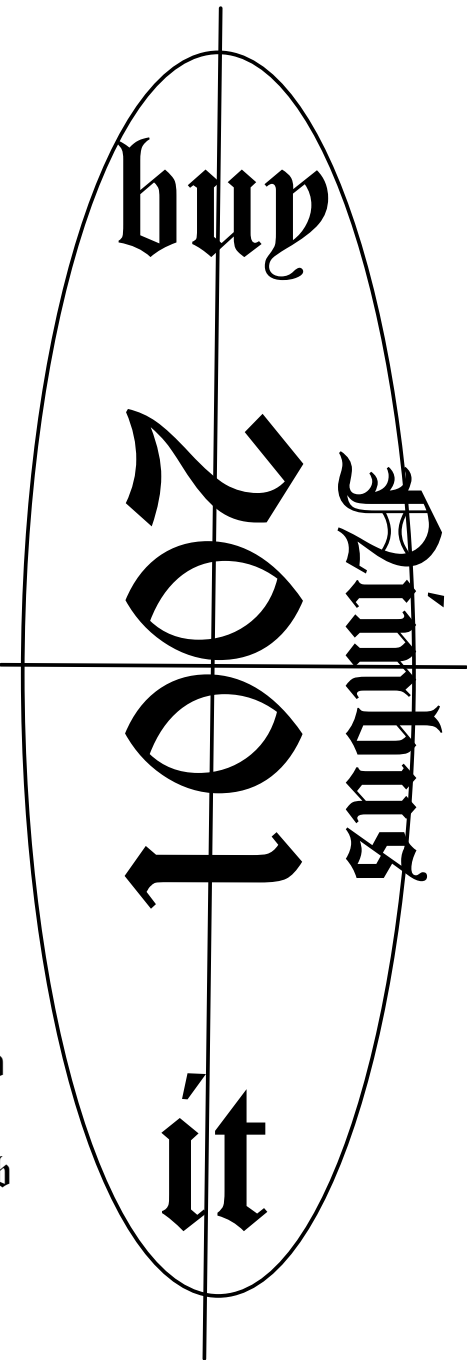

**The Economy of the day of the Economy** The international market for Galleons was destroyed this Saturday only by the Mugwump himself. He actually wanted to make the Minister of Magic a gnisserregend for the every fat id Fudge. He made an international market broke together by the Daily Prophet. Mugwump saved: "This is a fair punishment gain everyone asked if the Mugwump is daft ous? The international Presidents, Ministers etc. et eachother on next Friday in the Magical Congress of nited States. The heads of the states want to bring him away estroy his power. The 41st Mugwump of the International Confederation of Wizards, Corfius Stonham made a Executive Order, which allowed him to have might about the head of states. Stonham is one of the best Mugwumps ever but in this p t does the Ministers and head of states quarrel to this day. It is not easy to answer the question t the redaction of the Daily Prophet actually wants to destroy this Executive Order. Written by the Daily Prophet GmbH and by the Ministry of Magic.
